■■■■-4 ■■■■■■ ■■ ■■■■■■ — ■■■■■■■■ ■■■■■■■■

1. **QUESTION:** What is the difference between a
primary and a secondary source?
 2. **ANSWER:** A primary source is a source that
provides first-hand information or testimony about an event or
topic. It is created by someone who was directly involved in
the event or has direct knowledge of the topic.
A secondary source is a source that provides information
about an event or topic that was created by someone who
was not directly involved in the event or does not have
direct knowledge of the topic. It is created by someone
who has analyzed or interpreted the primary source.
